ASEA

Bedroom

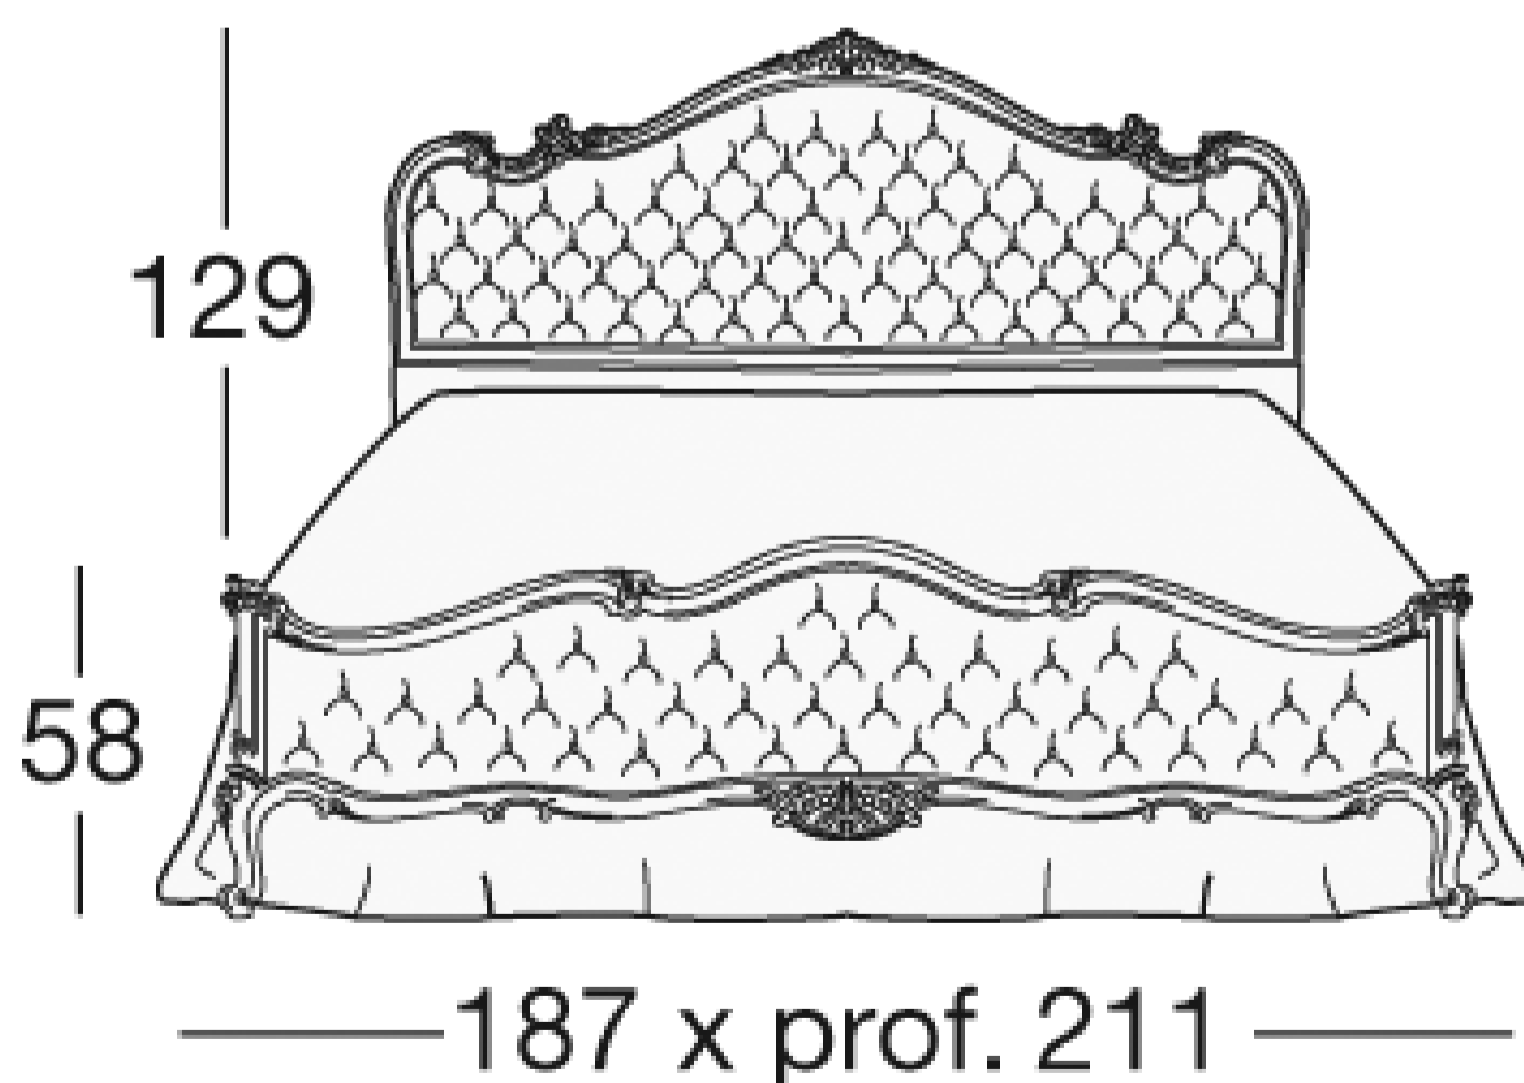

A light, binding, and refined style. The Asea bedroom has all these intrinsic qualities. The soft carved curves are detailed at the peak with small flowers and graceful leaves. Each item in this set offers luxury, simplicity, and lightness. The bed can also be combined with a throne with pelmet matching with the rest of the room.

Double bed

A light and refined style distinguishes the Asea collection, and this is well reflected in the two models of double bed, one with skilfully sewn capitonné panels and the other with upholstered headboard and bed frame. The beds can be further enriched with a throne with pelmet from which two veils of curtains go down to frame the headboard of the bed.

Night table

The two-drawer night table is simple and elegant, perfectly matching with the Asea collection's style. Thanks to the slightly rounded top there is an appreciable three-dimensionality. The carvings are few, elegant and well distributed just to give this article a simple lightness.

Chest of drawers

The chest of drawers of the Asea collection, as well as the night table, is slightly rounded at the top and does not have many decorations, just a few but properly designed to make this item elegant and charming. 86 cm tall and 142 cm long, the Asea chest of drawers guarantees comfort for every organizational need.

Mirrors

Asea collection is completed with two different models of mirrors: one more linear while the other characterized by a more unique shape, and a mirror frame with elegant and functional light and lampshade.

All these three models reflect the graceful shapes of the Asea collection adding that perfect detail in a bedroom signed Silik.
